Prior notification of a proposed development by telecommunications code system operators for a 15m replica telegraph pole with 3 equipment cabinets, power metre cabinet, satellite dish and ancillary development

No objection so long as the mast also provides a mobile phone signal for residents and visitors using the EE network. As this location is considered the best site in the parish, parish councillors could not support the proposal if this assurance is not forthcoming.

In order to further reduce the landscape impact of the mast, the parish council requests that both it and its attachments are painted in one discrete colour.
